work environment

IV HANGER BAG HOLDER

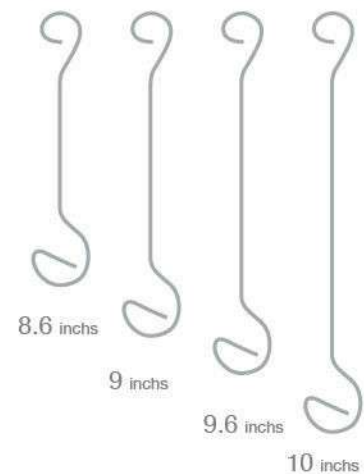

IV 5100

IV HANGER & ACCESSORIES

Enhanced IV carriage is designed specifically for the overhead suspension of drip bags without the need to use of valuable floor space. It reduces jarring as it glides through curves and bends of cubical track. With just a flick of the wrist and half a turn it locks in place. Also helps to maintain the patient comfort by not disturbing the needles or tubes.

CEILING HEIGHT RODS

**FLOOR
SPACE**
NOT REQUIRED

**EASY
LOCK**
WITH HALF A TURN

- Standard lengths available of 7', 8', 9', 12' and 16'.
- Comes in White backed acrylic enamel finish or clear anodized aluminium finish.
